

A new connection. One simple tap.

Save contact details from an NFC business card directly to your smartphone.

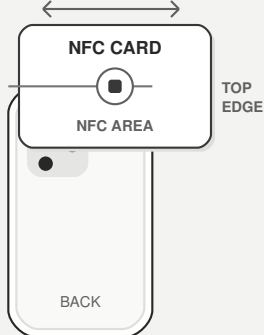

GET READY Unlock your phone. Connect to Wi-Fi or mobile data.

01 Find your tap spot

HOLD FOR 1-2 SECONDS

iPhone

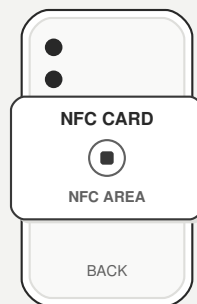

XS / XR and newer

Hold the top edge near the NFC area. Move slightly along the edge.

Samsung Galaxy

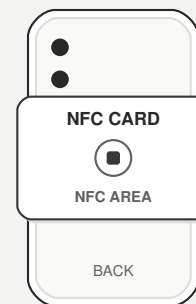

NFC switched on

Hold the card over the middle / upper back. Adjust slowly.

Pixel / Android

NFC-capable models

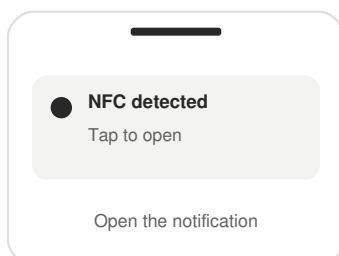

Hold the card over the middle / upper back. Adjust slowly.

Back views shown. Dashed line shows the iPhone's top edge behind the card.
Tap locations are approximate; antenna positions vary by phone and card.

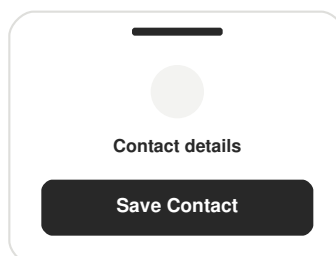

02 Open. Save. Stay connected.

1 Open the card

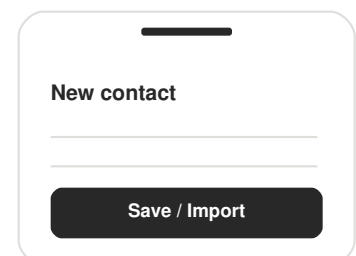

Tap the NFC notification or link on your phone.

2 Save the details

On the card page, choose Save Contact or Add to Contacts.

3 Confirm & check

Confirm Save or Import. Find the person in Contacts.
